

ImGui::GetForegroundDrawList

```
graph LR; A[ImGui::GetForegroundDrawList] --> B[ImGui::GetForegroundDrawList]; B --> B;
```

The diagram consists of two rectangular boxes. The left box is shaded gray and contains the text 'ImGui::GetForegroundDrawList'. A straight blue arrow points from the right side of this box to the left side of a second, white box on the right. This second box also contains the text 'ImGui::GetForegroundDrawList'. A curved blue arrow starts from the top of the right box and loops back to point at the top of the same box, indicating a self-loop or recursive call.
