

ImGui::TableLoadSettings

ImGui::TableSaveSettings

ImChunkStream::offset
_from_ptr

```
graph LR; A[ImGui::TableLoadSettings] --> C[ImChunkStream::offset_from_ptr]; B[ImGui::TableSaveSettings] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'ImGui::TableLoadSettings' and the bottom box contains 'ImGui::TableSaveSettings'. On the right, there is a single gray rectangular box containing the text 'ImChunkStream::offset' followed by '_from_ptr' on a new line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions interact with or depend on the variable 'ImChunkStream::offset_from_ptr'.
